Aubrey graduated high school at 16, and was in her first year of college. She just turned 17 in December. She was badly burned in an accident at a bonfire at a friend's house in Rosedale on December 28th. Aubrey was burned 30 % of her body with 3rd degree burns in addition to inhalation injuries. She is now fighting for her life, in critical, but stable condition at Johns Hopkins Bayview Burn Center ICU. Doctors predict that Aubrey faces at least 3 more months in the ICU, an entire year of surgeries, and many more years of therapy. Please help us support the daughter of a local volunteer firefighter & EMT. He was there to help countless others; won't you be there to help his family in their time of need?
